### CARE

Washing before initial use is not necessary for this soft surface. We recommend a biannual maintenance cycle, or more frequently if subjected to heavier use. Wash the wash+dry Decor mat separately according to the care label, using a maximum temperature of 60 °C and a mild detergent. Spin dry at a low speed, approximately 800 rpm. Lay the mat flat to dry or use a tumble dryer. Please consider the maximum load capacity of your appliances.

For wash+dry Decor rug sizes (170 x 240 cm, 140 x 200 cm, 110 x 175 cm, 80 x 200 cm), we recommend either taking them to a professional laundry service or cleaning them with a carpet cleaning machine.
